EXPERIENCE

karate4kids, sunset fair oaks — instructor manager contract

I did marketing on social media, participated in events And advertised and coached and had a self employed independent Contract with my parents within a family business cooperative for almost 10 years.

Kitchen Cabinet engineering construction— side job hustles

In north highlands

I helped and worked at my uncle's vladimir business private site and helped Measure cabins and cut wood and did deliveries and cleaned up and managed. He also painted, sanded and did installations of cabins and wraps. Worked there for 2-3 years.

Natomas new york liberty pizza manager assist

New york pizza liberty natomas downtown- helped management I worked with my buddy that I was a co-worker with side job part time for In 3 months total, I made pizzas, cleaned the place and was a cashier and everything and made calls and my buddy managed the place and I helped him with a temporary side job not for long and was getting paid. Drove Out for delivery to people's houses.

EDUCATION

Independent High, roseville pathways— Degree

Earned a diploma and graduated from high school 4 years ago or 3 in a half years ago American River college, north highlands carmichael— AA Degree I'm in college doing normal general ED classes and going

For computer science for application software engineering or web development designing job positions career wise. I have training abilities experience and bought or purchased bogdan computer science SQL python data science structure courses and I completed them and completed a class college career for IT intro course.

SKILLS: Have the ability to own or manage businesses and can take over when I learn really Fast at first it's hard that I can get used to, to do but later on I get used to it and understand structure and concept of ideas how business runs And job positioning industry functions Im very creative hard working and self motivated and persevering and high confidence and expectations in tasks

What are my goals and what I am aiming for: I'm plan on getting into bible college for ministry and to become a pastor or leader and businessman in IT industry and serve openly in church ministry and work partially too regardless if its side job or part time IT job position or when there's a good time to do open entry full time position I would love to start from.
